

ACADEMY BEYOND THIS WORLD

WORLD SYSTEMS BIBLE

Canon ∞ — Locked & Verified — Master Reference for All Creative Teams

1. World Philosophy & Canon Spine

The Academy Beyond This World is not a place. It is a living system of meaning, woven through time, emotion, environment, and connection. Everything is part of the whole.

Not a chosen one. Not power. Perception. Truth. Discovery.

The world operates on five primary systems that interact in a continuous intelligent loop. Each system receives, interprets, and elevates the signal from the previous layer.

System	Role	Canon Rule
I — Time	Primary Driver — controls world rhythm	Time gives the world rhythm. Everything else follows.
II — Weather	Atmospheric Response — emotional atmosphere	Weather is emotional atmosphere, not decoration.
III — Emotion	Internal Pulse — the Academy's voice	Emotion is the Academy's voice.
IV — Awareness	Symbolic Intelligence — architecture of meaning	Symbols are the architecture of meaning.
V — Society	Memory & Connection — the Academy remembers	The Academy remembers its people.

CANON LOCK: These five systems are absolute. They govern all visual, narrative, and environmental design decisions.

2. Time System — Primary Driver

Time controls the world's rhythm. Everything else responds to it. The six time phases each carry distinct visual, emotional, and symbolic qualities.

Phase	Time	Light Quality	Colour Palette	Emotional Tone
Dawn	First light	Warm + soft, directional	Amber, rose, pale gold	Hopeful, new beginning
Morning	Early day	Clear, energetic	Warm gold, cream, sky blue	Curious, active, open
Afternoon	Midday	Neutral + clear	Bright gold, stone, green	Focused, productive

Sunset	Fading light	Warm + fading, dramatic	Deep amber, orange, purple	Reflective, transitional
Night	Dark hours	Cool + contrasty	Deep navy, silver, violet	Mysterious, intimate
Deep Night	Late hours	Deep cool, isolated	Near-black, deep purple, stars	Isolated, profound, vast

Time flows. Emotions rise. Seasons turn. Systems interact. The Academy lives.

3. Weather System — Atmospheric Response

Weather is not decoration. It is the emotional atmosphere of the world made visible. Every weather state carries specific anomaly behaviour and symbolic meaning.

Weather	Visual Atmosphere	Anomaly Behaviour	Stability	Anomaly Probability
Clear	Full visibility, minimal anomalies, symbols quiet	Dormant, stable	High	0–15%
Rain	Reduced visibility, symbols flicker, reflections active	Surface anomalies	Moderate	20–40%
Fog	Distance collapses, symbols emerge from mist	Layered anomalies	Low	40–60%
Snow	Muffled sound, symbols crystallise, time slows	Threshold anomalies	Low	35–55%
Night Atmosphere	Symbols dominant, emotional pressure high	Structural anomalies	Critical	55–75%
Deep Night	Anomalies peak, distances collapse, symbols dominate	Override state	Critical	70–100%

Observation Rules:

- Do not trust distance during fog or snow
- Patterns repeat, but never identically
- What the weather hides, the symbols eventually reveal
- Dress, route, and decision should match the weather state

CANON LOCK: *Weather changes pattern visibility. Anomalies follow behaviour, not chance.*

4. Emotional System — Internal Pulse

The Emotional Climate System governs how the world feels at any given moment. Emotions shape weather, light, colour, and events. The five primary emotional states cycle through the world.

Emotional State	World Effect	Visual Signature	Symbol Response
Calm	Stable, clear, gentle	Soft light, still water, quiet colours	Symbols dormant
Curiosity	Energised, opening, inviting	Warm light, movement, golden tones	Symbols flicker
Tension	Compressed, urgent, charged	High contrast, purple energy, sharp shadows	Symbols pulse
Longing	Soft, aching, beautiful	Warm amber, distance, soft blur	Symbols align
Wonder	Expansive, luminous, vast	Full spectrum, glowing, cosmic	Symbols override

Emotion is the Academy's voice. Listen to what the world is feeling.

5. Awareness System — Symbolic Intelligence

The Awareness System tracks the symbolic intelligence of the world. As characters develop perception, the world reveals more of its hidden architecture.

Awareness State	Description	Visual Expression	Character Access
Dormant	Surface reality only, symbols invisible	Normal environment, no special effects	All characters
Flicker	Symbols briefly visible, world slightly responsive	Occasional symbol flash, light shifts	Astra (natural)
Pulse	Symbols regularly visible, patterns emerging	Recurring geometric patterns, floor glows	Trio (developing)
Align	Symbols integrated, world actively communicating	Architecture responds, symbols stable	Trio (aligned)
Overlap	Multiple reality layers visible simultaneously	Layered visuals, past/present overlap	Rare state
Override	Full system visible, reality transparent	Complete symbol revelation, world speaks	Earned state

Awareness Layers — What Characters Can Reach:

- Surface Layer — observable reality
- Pattern Layer — connections and symbols
- Structure Layer — systems and rules
- Core Layer — purpose and causality
- Origin Layer — everything connects, time folds
- Beyond Layer — only the rare can reach; the world becomes transparent

 **CANON LOCK:** Awareness is not power. Awareness is responsibility. The Academy exists to understand, connect and protect.

6. Social System — Memory & Connection

The Academy remembers its people. Social evolution follows an eight-step sequence that tracks how relationships deepen and how the Academy responds to collective growth.

Stage	Name	Description	World Response
1	Meet	First contact, curiosity, openness	World notes the connection
2	Interact	Exchange, learning, testing	Symbols begin to align
3	Connect	Trust established, bond forming	Spaces begin to remember
4	Share	Vulnerabilities, truths, stories	World softens around the group
5	Grow	Challenges faced together	Architecture responds to trio
6	Remember	Shared history becomes foundation	Memory nodes activate
7	Inspire	Others are changed by the connection	World teaches through them
8	Legacy	The bond becomes part of the Academy	Canon Lock — permanent memory

 **CANON LOCK:** This is a rare, earned narrative state. The Academy remembers people. Friendships deepen, rituals gain meaning, spaces gain memory.

7. World Breathing Cycle — Rhythmic Intelligence

The ABTW World Breathing Cycle ∞ is the absolute canon governing the world's rhythmic intelligence. The world breathes in six stages, each corresponding to time, weather, emotion, awareness, and location states.

Breath Stage	Name	Awareness State	Emotional Quality	World State
B-01	Inhale — Awakening	Dormant	Stillness	Quiet, potential
B-02	Rise — Activation	Flicker	Curiosity	Opening, inviting
B-03	Peak — Clarity	Pulse	Awareness	Clear, focused, alive
B-04	Shift — Threshold	Align	Transition	Between states, charged
B-05	Descent — Revelation	Overlap	Honesty	Revealing, vulnerable
B-06	Deep Breath — Understanding	Override	Silence	Complete, integrated

| *The world breathes. Every breath is a cycle of discovery. Every cycle is a story.*

 **CANON LOCK:** *Module D — Rhythmic Intelligence of the Academy. Absolute Canon Lock. This cycle governs all environmental timing decisions.*

8. World States — Perception Shift Progression

The world moves through four canonical states as the story progresses. Each state has distinct visual, atmospheric, and symbolic characteristics.

8.1 Sheet W-01 — Normal World State

Description: Surface reality — the Academy as it first appears

Visual Character: Warm, clear, inviting, readable, safe

Anomaly Level: None visible

Symbol State: Dormant

8.2 Sheet W-02 — Perception Shift State

Description: The world begins reacting. The Academy is aware of presence, intention, and change.

World Feeling: Reality slightly thinner, more responsive; walls remember; paths adjust

Environmental Tone: Light gains depth, shadows stretch, fog carries whispers, atmosphere becomes aware

Emotional DNA: Emotions echo, thoughts influence, questions unlock, world reacts softly but clearly

Symbolic State: Symbols begin to move, meanings shift, signs appear in unexpected places

| *The world remembers you. Your presence leaves a trace. The Academy begins to open its eyes.*

8.3 Sheet W-03 — Symbol Resonance State

Description: Symbols become emotionally present. The world teaches from within.

World Feeling: Symbols are not just visible — they are felt

Environmental Tone: Geometric patterns in light, water, architecture; symbols integrated into space

Emotional DNA: Meaning is everywhere; the world communicates directly

Symbolic State: Symbols align with purpose and become gateways

 **CANON LOCK:** *Symbols become emotionally present. The world teaches from within.*

8.4 Sheet W-04 — Under-Structure Awareness State

Description: Reality reveals its framework to those who can carry its weight.

World Feeling: Structures beneath events become visible; cause becomes traceable

Systemic Intelligence: The mind maps patterns across time, space, and emotion

Reality Depth: Awareness reaches layers most cannot access

Emotional Gravity: Emotions influence systems and alter outcomes

Risk & Cost: Isolation, emotional weight, the burden of knowing structure

| *Awareness becomes architecture. Knowledge becomes responsibility.*

 **CANON LOCK:** *This is a rare, earned narrative state that cannot be forced. It changes both the character and the world.*

9. Activation Logic System

The Activation Logic governs when and how the hidden system responds. Three conditions must unite simultaneously for the system to activate.

Condition	Number	Description	Visual Indicator
Attention	01	The character must be actively noticing — not just present	Astra's perception focus, eye motif
Understanding	02	The character must comprehend what they are seeing	Lumi's analytical glow, book motif
Alignment	03	The character must be in the right state — emotionally and intentionally	Nela's action readiness, compass motif
Response	04	The system activates — the world responds	Full symbol revelation, architecture reacts

Attention + Understanding + Alignment = Response. The system does not reward force. It rewards perception.

🔒 CANON LOCK: All three conditions must be present simultaneously. The system cannot be forced, tricked, or bypassed.

10. Family Systems Overview

The ABTW world is organised into five Family Systems, each governing a distinct domain of the world's architecture.
